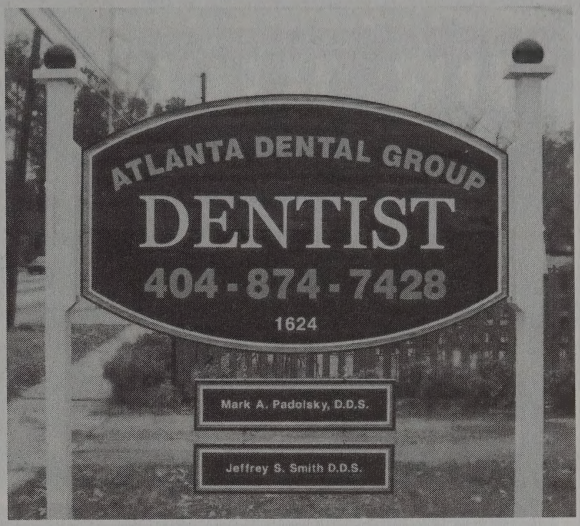
Your dental health is important!!



Good dental health can improve the ***quality*** and ***quantity*** of your life.

What's the value of a ***warm beautiful smile*** to your self confidence and how much will other people enjoy it?

How important will it be to easily ***chew your food*** when you get old?

Recent university based studies have shown that bacteria can and do enter your blood through unhealthy gum tissue and this can ***cause medical problems***. There's just no good reason for not taking good care of yourself.

Doctors Padolsky and Smith ***treat people, not teeth***. Let them design your smile and help you make a lifetime plan to keep your teeth, gums, bone and smile healthy throughout your life.

We provide most dental care for our patients under one roof so you generally don't have to visit doctors all around town.

Join us in a hand-to-mouth endeavor.

Every day dozens of volunteers cook, assemble meals, pack them and drive them to the homes of people with AIDS. They feed over 400 hungry mouths two meals a day, seven days a week. They pitch in to answer phones, type up delivery lists and lend a hand to the only organization in Atlanta that brings food to PWAs.

Call Project Open Hand/ Atlanta at 404-872-2707 to find out how to get involved.

Join us in a hand-to-mouth endeavor.

Every day dozens of volunteers cook, assemble meals, pack them and drive them to the homes of people with AIDS. They feed over 400 hungry mouths two meals a day, seven days a week. They pitch in to answer phones, type up delivery lists and lend a hand to the only organization in Atlanta that brings food to PWAs.

Call Project Open Hand/Atlanta at 404-872-2707 to find out how to get involved.
